

13th GSMC-FAIMER REGIONAL INSTITUTE 2017 - 2019

Foundation for Advancement of International Medical Education and Research (FAIMER) is a sister organization of Education Commission for Foreign Medical Graduates (ECFMG), USA and has been successfully running faculty development fellowships since 2000 in USA. Encouraged by the success of these programs, it was decided to take these programs right to the doorsteps of medical educators. To begin with, the first such Institute was commissioned at the Seth GS Medical College, Mumbai in 2005 and the second was started at CMC Ludhiana in January 2006. In 2007, Regional Institutes started in Brazil and Coimbatore. At present, many regional institutes are being conducted across the world.

The Objectives of the Regional Institute are

To enable the educators of health professionals to:

- ◆ Become effective teachers
- ◆ Be proficient in general leadership and management skills
- ◆ Develop positive attitudes towards teaching and learning
- ◆ Make learning relevant to health needs of the community
- ◆ Plan and implement a curriculum innovation project at every parent institute
- ◆ Develop network amongst the medical educators.

Expectations of the Regional Institute from the Successful Participant

At the end of the course the participant will be able to run an effective and efficient education network to usher in desirable changes in the curriculum and drive the process of medical learning to relevant needs of the society. The participant will make efforts to nurture a conducive educational environment at her/his institute and will forever remain a partner in educational development.

For whom is this fellowship?

The fellowship of Regional Institute is open to all teachers of health professions (Medical, Nursing, Physiotherapy and allied branches) working in recognized colleges who wish to upgrade their qualifications and are keen to develop their education research and impartation skills. The fellowship is a two year long program and consists of four sessions. To get enrolled in GSMC-FAIMER you need to be able to dedicate a minimum of 2-3 hours per week, over ten months for project related work and for contribution to online discussions. The deadlines for submissions should be met with.

Method of Selection

A review committee of the Regional Institute in consultation with FAIMER Directors will select the candidates. Previous experience in medical education technology and curriculum development, quality of the submitted curricular project, participation in medical education activities and facilities available at the participant's institute, representation from same discipline from the various institutes will be considered besides the curriculum vitae of the applicants.

How Does GSMC-FAIMER Work?

The GSMC-FAIMER is an integrated program which, enables you to follow a course while still working in your institution.

The program comprises:

- First session:** 17th to 23rd April 2017. - Seven days on-site training program.
- Second session:** April 2017- April 2018. This session will be on-line interactive discussions.
- Third Session:** 5 days in April 2018 (Exact dates will be informed in JAN. 18)
- Fourth Session:** April 2018- April 2019, online Networking, Mentoring and Learning session.
On successful completion of all these phases, a certificate will be awarded.

Your participation

In consultation with your departmental colleagues and with necessary approvals from your department and institute you are required to develop any education related project e.g. implementing newer T L methods, assessment methods, development of curricula programme evaluation, etc. You need to hone computing and networking skills as during the intervening period the contacts will be online.

*** Participants will have to bear travel expenses to Mumbai and back.**

Application Process

Applications are available at www.faimer.org. Application should be completed online before 20th Jan. 2017 and should be supported by the respective Heads of the institution.
